Deep Dive into Cloud Provider Azure

Brendan Burns, Distinguished Engineer, Microsoft @brendandburns

Pengfei Ni, Senior Software Engineer, Microsoft @feiskyer

Agenda

KubeCon

CloudNativeCon

North America 2019

Past, present and future of Kubernetes on public clouds

Progress moving out of kubernetes/kubernetes

Demo of out-of-tree provider with aks-engine

How you can get involved

Q&A

A brief history of time...
... and cloud providers.

Kubernetes was
built for the cloud

Kubernetes was built in the cloud

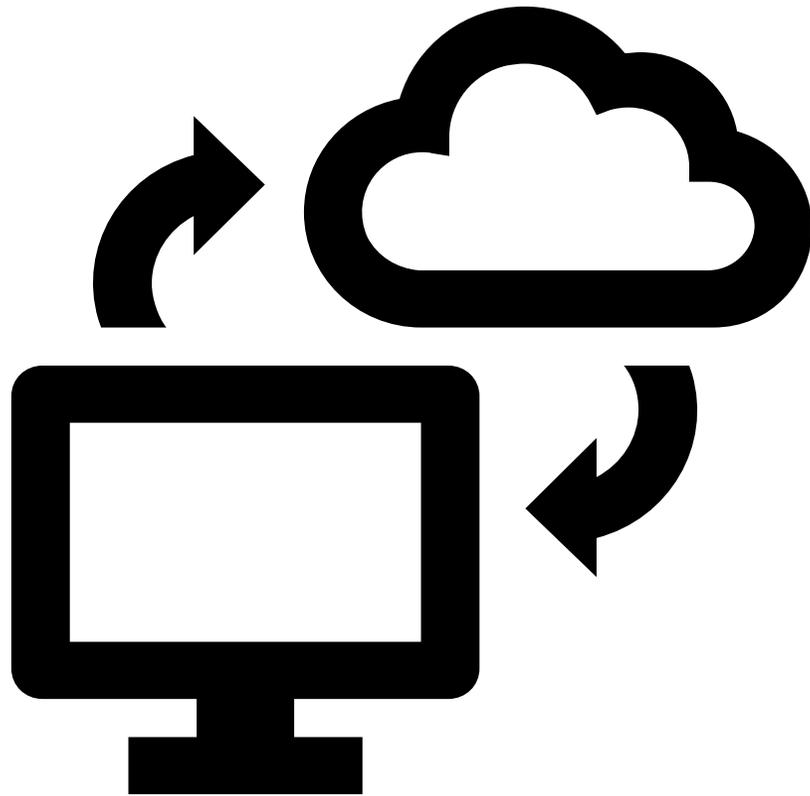

KubeCon

CloudNativeCon

North America 2019

AddRoute(...)

Kubernetes was built by the cloud

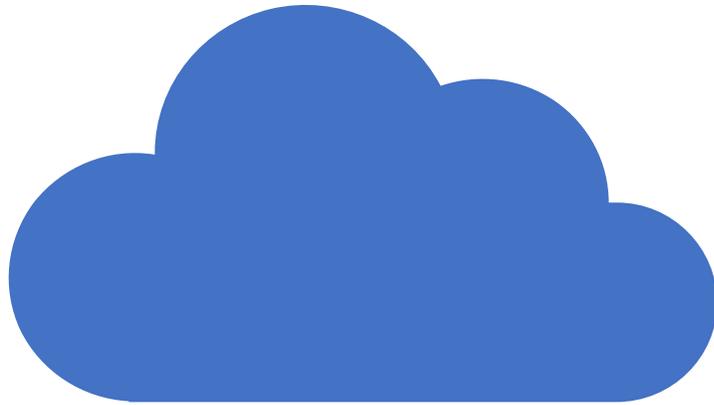

KubeCon

CloudNativeCon

North America 2019

But the cloud wasn't built for Kubernetes

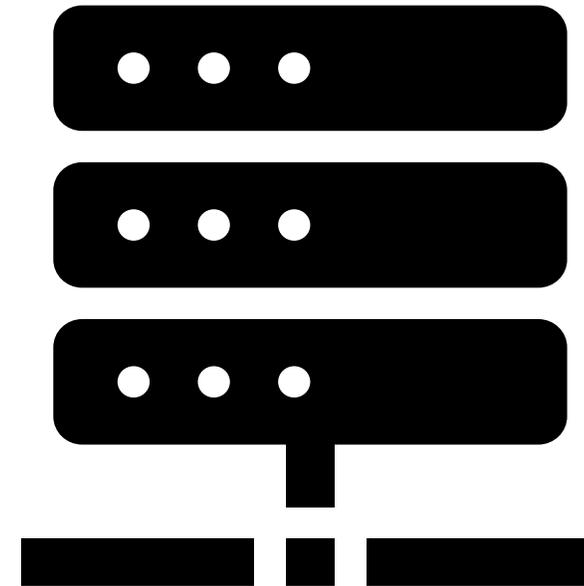

KubeCon

CloudNativeCon

North America 2019

And more problems

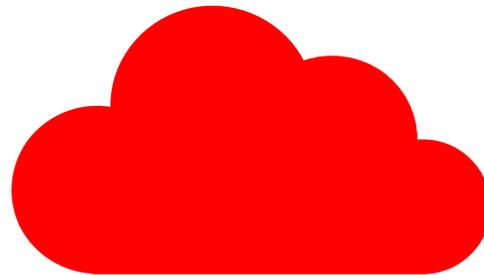

KubeCon

CloudNativeCon

North America 2019

And even more problems

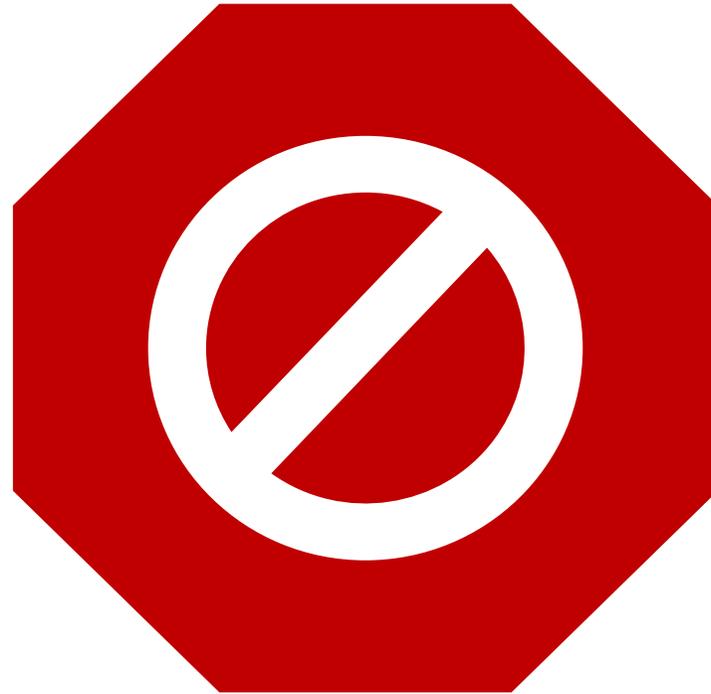

KubeCon

CloudNativeCon

North America 2019

And even more problems

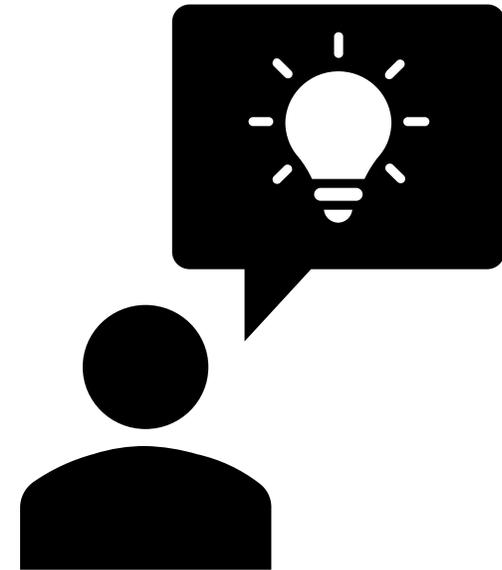

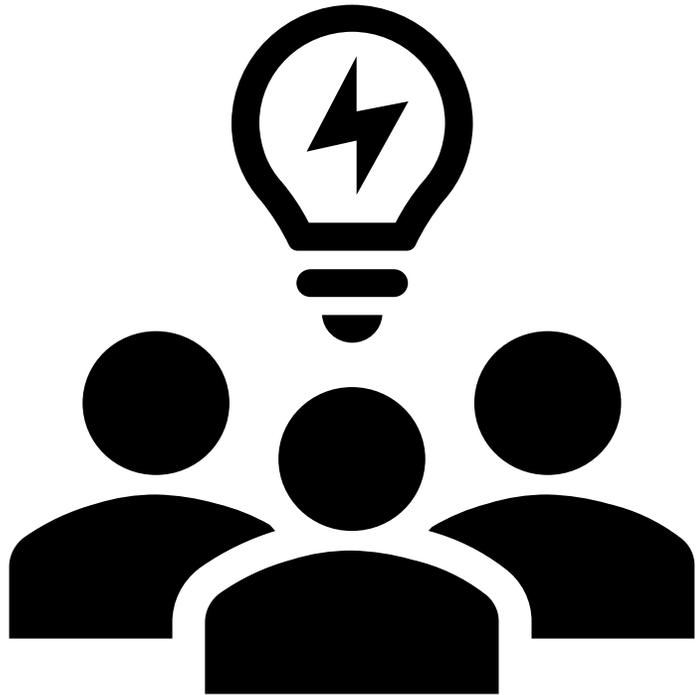

KubeCon

CloudNativeCon

North America 2019

Now the cloud is built for Kubernetes

KubeCon

CloudNativeCon

North America 2019

Now the cloud is built on Kubernetes

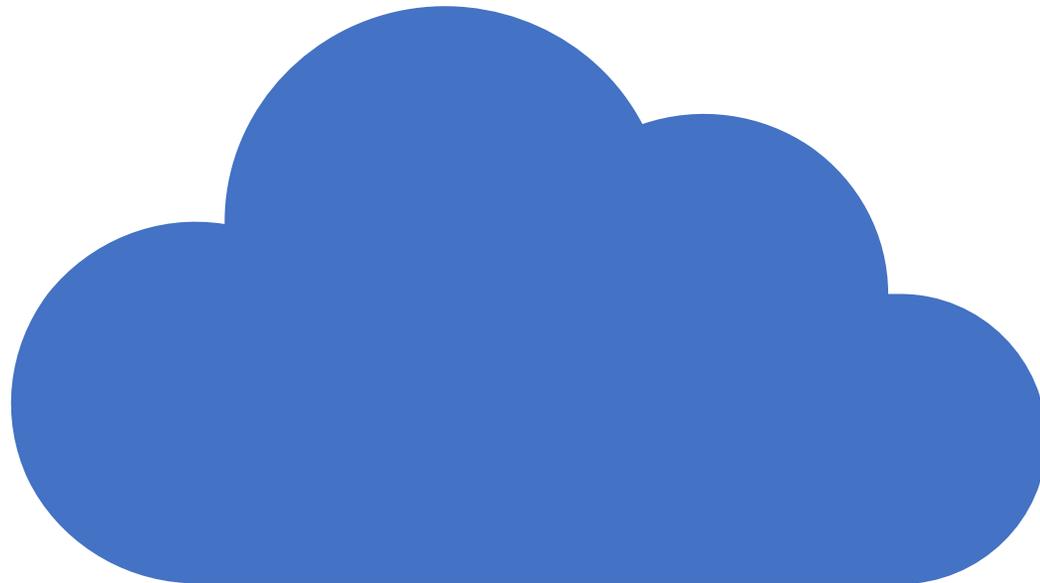

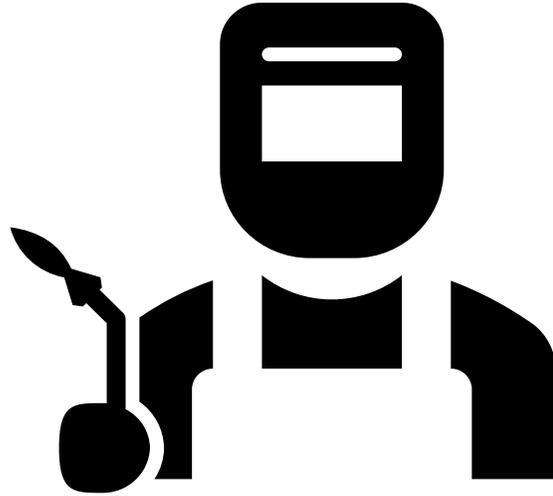

KubeCon

CloudNativeCon

North America 2019

& Kubernetes is built for the cloud(s)

KubeCon

CloudNativeCon

Out-of-tree cloud provider Azure

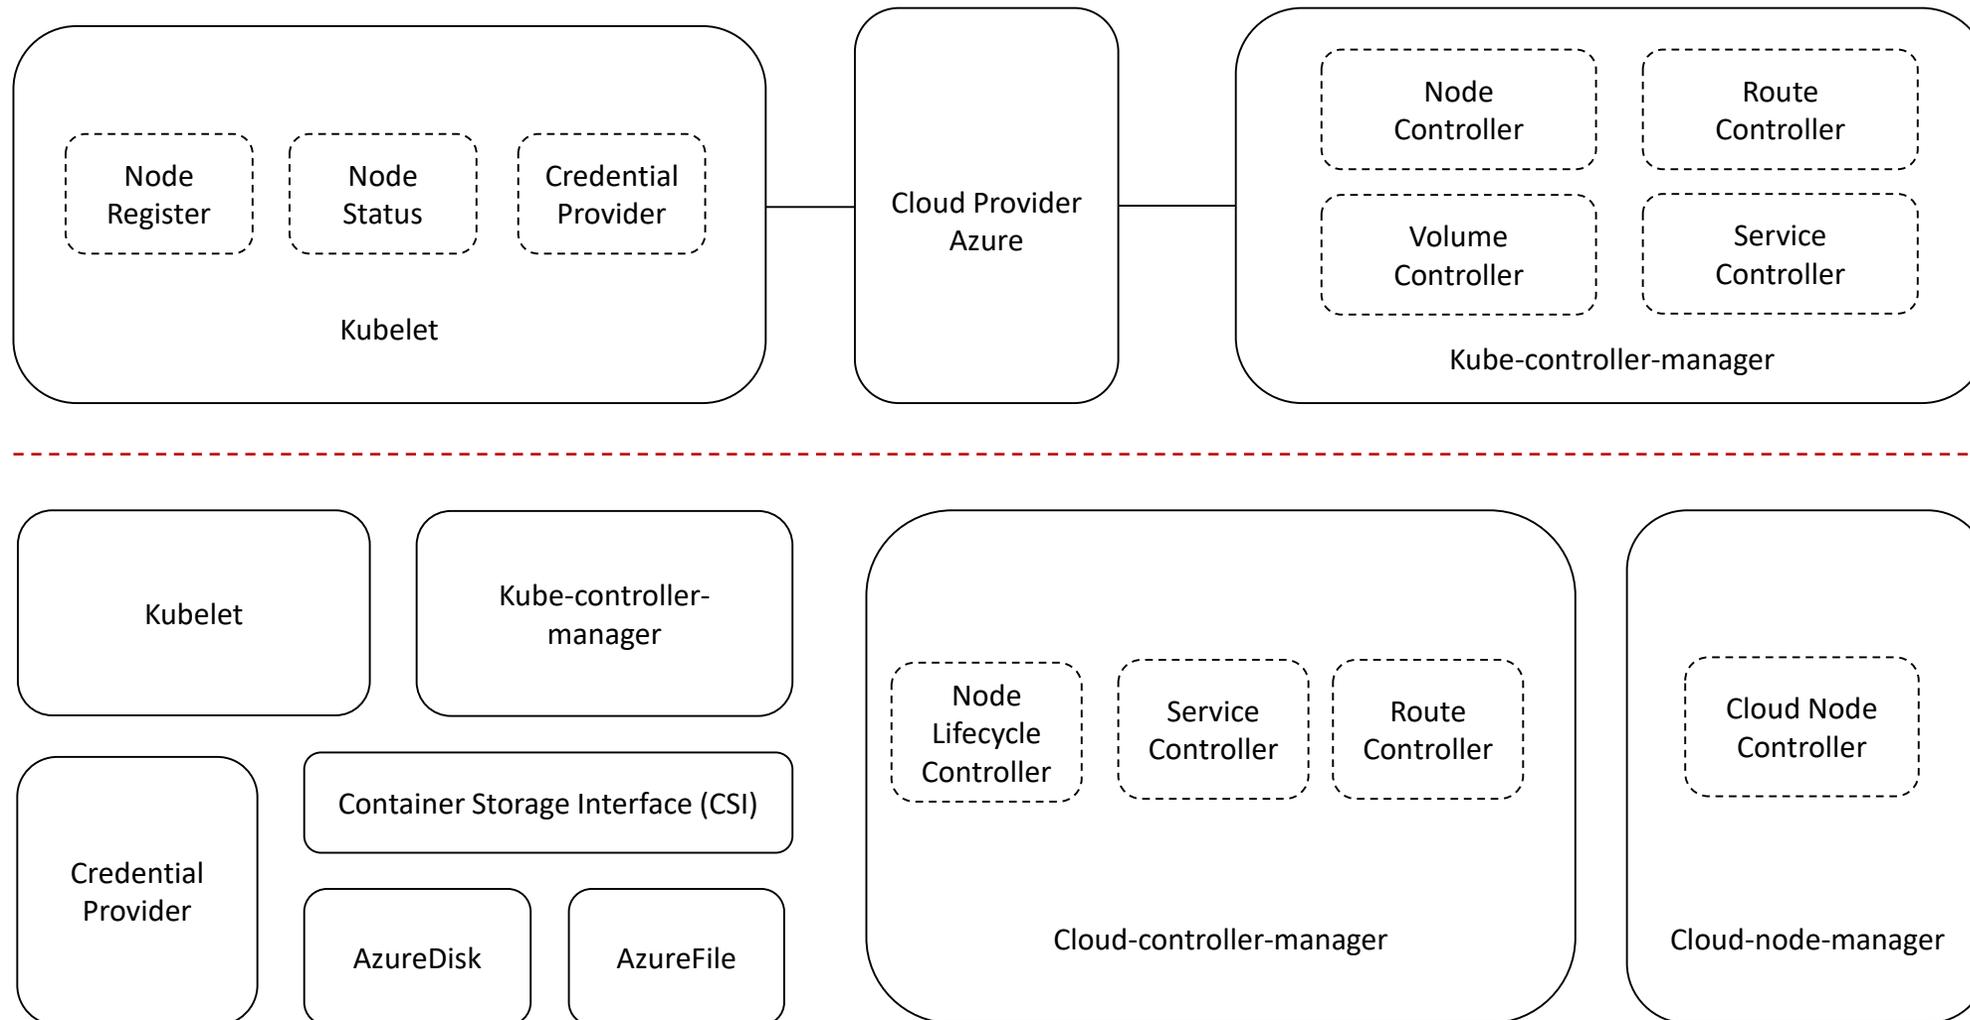

KubeCon

CloudNativeCon

North America 2019

Progress moving out of tree

KubeCon

CloudNativeCon

North America 2019

Supporting Instance Metadata Service with cloud-controller-manager

- KEP: [kubernetes/enhancements#1158](https://kubernetes.io/enhancements/#1158)
- POC in cloud-provider-azure
- aks-engine integrated

CSI drivers for AzureDisk/AzureFile

- Beta on Linux nodes
- aks-engine integrated
- WIP on Windows nodes

External credential provider

- KEP drafting

Demo of out-of-tree provider

KubeCon

CloudNativeCon
