Europe 2018

## Processes:

- [Charter](#)
- [Projects.md](#)

## 2018 Principles:

- If it's not automated, it better be documented.
- Achieving a SPOF-less SIG
- Growing our contributors
- All contributors should have a close to same experience and smooth process across repos

# Subproject: Mentoring

# Subproject: Contributor Workflow and Automation

KubeCon

CloudNativeCon

Europe 2018

OWNERS: (grodrigues3, spiffxp, cblecker)

- Process consistency across the org ([What does lgtm mean to you?](#))
- [Improvements to cherry pick process](#)
- [Removing the need for write access](#) (only thing it's useful for now: editing others' titles/descriptions for release notes)
- Future: Github org and team membership automation
- We are always seeking feedback on workflow!
