# Technical Oversight Committee (TOC)

Represent the community  
Votes on which projects should  
join CNCF

[github.com/cncf/toc](https://github.com/cncf/toc)

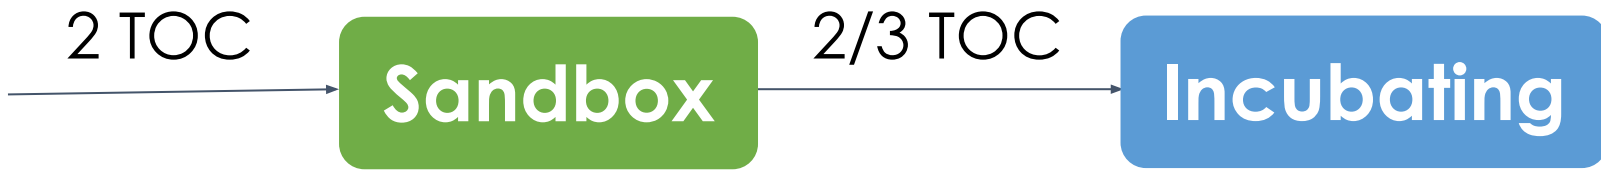

2 TOC

Sandbox

## Goal: Show **relevance**

- Understand the problem it solves
- Show it fits into a cloud native architecture
- Ensure source code and all dependencies are under an open source license

## Goal: Show **adoption**

- Find end users and write case studies (specifications need at least one public reference)
- Have a website and social media, publish blog posts, speak at meetups and conferences

## Goal: Show **healthy community**

- Open up governance to external companies
